01:988:408 / 11177:90	Impacts of Economic Inequality on Women's Health		3	
<b>Professor KB Burnside-Oxendine</b> Domestic and global economic inequality place significant numbers of people at high risk for health crises even as they are denied access to care. This course investigates the "pathogenic" aspects of gender and economic inequality; how systems of unequal resource distribution contribute to wide disparities of health risk, access to healthcare, and clinical outcomes; and how global trade and trans-national migration affect health costs, healthcare delivery systems, and the availability of healthcare professionals.				
01:988:410 / 17024:90	Debt, Crisis, and Women's Health		3	
<b>Professor KB Burnside-Oxendine</b> Growing national debt has become a feature of increasing numbers of nations over the past 60 years, heightening dependence on international financial institutions, restricting the sphere of freedom of national policy makers and, consequently, severely cutting healthcare provisions. This course unsettles the conventional moral calculus of credit and debt, exploring the relationship between debt and economic crisis and examining the impacts of austerity policies on women's health.				
01:988:413 / 19889:90	Health Consequences in the Global Trade in Pharmaceuticals		3	
<b>Professor Omid Mohamadi</b> Multinational pharmaceutical companies remain the primary developers of new drug regimens. The health effects of drug research and development, however, vary markedly from one region of the world to another. This course explores the political economy of the global pharmaceutical industry, analyzing the distribution of burdens and benefits. It examines several ethical issues, such as clinical trials on populations in the Global South and the continuing sale of drugs across the Global South after they have been banned in the global North, among others.				

By checking this box I certify that I have visited the website for the Office of the Registrar, have reviewed and will follow the Policies and Procedures, including information on tuition and fees, schedule revisions and deadlines. I also understand that I am fully liable for all university tuition and/or fees associated with my registration and will make payment or arrangements for payment suitable to the university prior to attendance and will not receive confirmation of registration until such time as payment has been received. I understand that registration is not guaranteed and is contingent on space availability and/or departmental approval. I also understand that transferability of credits is solely determined by the institution(s) I have applied to or am matriculated in. In addition, I recognize that registering for courses via Rutgers Continuing Studies does not guarantee acceptance into any academic program other than the Certificate in Women's Global Health Leadership.
